

Food Safety Policy

Pac Tech International, Inc., is a water bottling company committed to satisfying our customers and complying with regulatory quality, food safety and legal requirements, including the prevention of food fraud and food defense, this being our priority. Risks are continuously identified, analyzed and controlled by managing a management system that is designed to meet our goals and objectives related to food safety in our products, through Hazard Analysis and Critical Control Points (HACCP) and preventive controls. We ensure that our staff are competent in food safety hazards through a robust training program, using continuous improvement to ensure its effectiveness.

Our policy is communicated, implemented, understood, maintained and available at all levels of our organization and clients. It is periodically reviewed and approved by the company's senior management and supported by measurable objectives.
